History

The institution was founded in 1930 as the Kiev Civil Engineering Institute on the basis of factory and communal construction branch of the Kiev Polytechnic Institute (KPI) and the architecture faculty of the Kiev Art Institute. During the post-WWII Soviet period, KISI rose to become the second highest engineering and architecture faculty in the U.S.S.R., behind the Moscow Civil Engineering Institute (МИСИ).

By the Decree of the Cabinet of Ministers of Ukraine of August 13, 1993 the Kyiv State Technical University of Construction and Architecture was created on the basis of the Kyiv Civil Engineering Institute. On February 28, 1999 by the Decree of the President of Ukraine (217/99) the university was accorded the status of a National University as «Kyiv National University of Construction and Architecture.»

Student life

Educational and scientific work is organized and carried out by more than 96 chairs numbering about 800 professors and instructors.

About 10,500 students study at the university. After the graduation they acquire the education qualification levels of Bachelor, Specialist, and Master of Science. The postgraduate courses in about 30 specialties are available at the university for those who choose to continue their professional and scientific training under the guidance of experienced advisers. The postgraduate preparation functions at the University, 9 specialized Scientific Councils for protection of the doctor's and candidate dissertations in 25 scientific specialties, 7 research institutes and 11 specialized research laboratories works.
